JOSIAH TURNER, Jr., EDITOR.

THE "SAINTED LINCOLN."

We received yesterday a "free religious" paper called the *Index*, published at Toledo, Ohio. Looking over its pages, we found a letter to the editor from one of Lincoln's intimate friends from 1834 till the day of his death, named Herndon, an Illinois man, who has, we believe, written a life of the late President. It is in response to a letter from the editor asking information as to Lincoln's religious views, and is headed "Abraham Lincoln's Religion," and is dated February 18, 1870. A paragraph or two may prove interesting:

Says the writer:

"When Mr. Lincoln was a candidate for our Legislature, he was accused of being an infidel, and of having said that Jesus Christ was an illegitimate child; he never denied his opinions, nor flinched from his religious views; he was a true man, and yet it may be truthfully said that in 1837 his religion was low indeed. In his moments of gloom he would doubt, *if he did not sometimes deny, God.* He made me once erase the name of God from a speech which I was about to make in 1854, and he did this in the city of Washington to one of his friends.

Mr. Lincoln ran for Congress against the Rev. Peter Cartwright, in the year 1847 or 1848. In that contest he was accused of being an infidel, if not an atheist; he never denied the charge—would not—"*would die first;*" in the first place because he knew it could and would be proved on him; and in the second place, he was too true to his own convictions, to his own soul, to deny it. From what I *know* of Mr. Lincoln, and from what I have heard and verily believe, I can say: first, that he *did not* believe in a special creation, his idea being that all creation was an evolution under law; secondly, he *did not* believe that the Bible was a special revelation from God, as the Christian world contends; thirdly, he *did not* believe in miracles, as understood by the Christian world; fourthly, *he believed in universal inspiration and miracles under law;* fifthly, he *did not* believe that Jesus was the Christ, the Son of God, as the Christian world contends; sixthly, *he believed that all things, both matter and mind, were governed by laws*, universal, absolute, and eternal.

I do not remember ever seeing the words *Jesus* or *Christ* in print, as uttered by Mr. Lincoln. If he has used these these words, they can be found. He uses the word *God* but seldom. I never heard him use the name of Christ or Jesus, but to confute the idea that he was *the* Christ, the only and truly begotten Son of God, as the Christian world understands it. The idea that Mr. Lincoln carried the New Testament or Bible in his bosom or boots, to draw on his opponent in debate, is ridiculous.

DON FRANCISCO LOPEZ.—The late Paraguayan President, Don Francisco Solano Lopez, whose death was officially announced on yesterday, was born in the year 1827.—He was the son of Don Carlos Antonio Lopez, who had succeeded the Dictator Vilasi as Consul in 1841, and in 1844 was "elected" President of Paraguay for ten years, being subsequently twice re-elected. Don Francisco received a thorough education, which was completed in England, and in 1853 he entered public life, being sent by his father to Europe to ratify the treaties of commerce which had been concluded by Paraguay with England, France and Sardina. Don Carlos died in September, 1862, and on the 16 h of October following his son was unanimously "proclaimed" his successor. His reign has been a stormy one, and, dead or alive, Paraguay is in a sadly dilapidated condition.

Lopez held out against the allies for five years. The first battle was fought at Corrientes, April 12, 1865. He leaves a large family, one son being in New York city pursuing a course of legal studies. On being interviewed on Wednesday this young man, the hereditary President of Paraguay according to the old consti union, stated his disbelief of the story of his father's death. He thinks that it is the usual Brazilian canard to cover a defeat. The Lisbon steamer which brought the news of the recent Parsguayan victory, it is stated, had as late intelligence as the Montevideo steamer could have had.

WHAT "PORT WINE" IS MADE OF.—Some parties in Stonington, Conn., have recently been prosecuted for selling adulterated wines and liquors. Samples of their "stuff" were submitted to Professor Silliman, of Yale College, the State chemist, and the following is the result of his analysis of what was sold for port wine: The liquor was turbid, heavily laden with sugar or molasses and some coloring matter; contained 21 per cent. of alcohol; over 10 per cent. of sugar or molasses; about 100 grains of sulphuric acid to the gallon, part of it free, as oil of vitriol, and part combined in alum; oxide of lead, or litharge, in poisonous quantities, or about 45 grains to the gallon. The alcohol had an acid taste, and the coloring matter an offensive odor. The liquor was stronger of lead than most waters that are poisoned by it.

Never call a man a lost man until he is buried in a hopeless grave. No man is lost upon whom any influence can be exerted; no man is lost to whom the offer of the gospel may be brought. It is but a few weeks since I sat by the side of one of the purest and loveliest of females, who was once degraded, but who is now at the head of a family highly respected and beloved. We are never to be discouraged. There is no man or woman so vile, but God may bring them washed and saved to his kingdom.—Dr. Tyng.

A CORRESPONDENT in Florida says that the stories told about the generous and immense orange groves of that State are fictional. The groves are few and far between," and the yield is so small that to day oranges are selling there at $1 the dozen. The same of bananas. After looking in vain for the countless banana trees said to grow in Florida, this correspondent came across a few coal black specimens of that fruit "three for a quarter."

A watchmaker in Meriden, Connecticut, has on exhibition in his shop an old watch, with only an hour hand and a common catgut for a winding chain. It has a brass case, but was originally inclosed in a huge tortoise shell. The inscription on the watch is "W. Lee, No. 2, 1658"—making it 212 years old, undoubtedly the oldest running watch in America. It keeps excellent time, not varying two minutes a week.

DISTINGUISHED ARRIVAL.

Hunnicutt arrived in this city on Thursday night last, and after remaining a few hours, was escorted out for a somewhat lengthened sojourn at the new stockade enclosure west of the city, vulgarly called the Penitentiary.

This was not Hunnicutt of Virginia, but Hunnicutt of Stanley county, sentenced at the last term of the Superior Court for that county, to a term of years in the Penitentiary, by Judge Buxton. He is a great rogue and loyal leaguesman.

Levi Morton, member of the Constitutional Convention, and leading Leaguer of Stanley county, was here in advance of Hunnicutt and applied to His Excellency, Governor Holden, head centre of all the Leagues, for a pardon, but failed to get it.

We are glad to see the Governor weakening on that point, as well as on the whiskey question. By constantly pollishing, we think we can drive the Governor, eventually, from his wholesale pardon of felons, as we drove him from the grog shops.

Morton, however, reported on his return home, that the Governor would pardon Hunnicutt, if Judge Buxton would sign his petition.

What the Judge will do remains to be seen. If the Judge is in good standing and full fellowship in the League and bound by the same horrid, black oaths that the Governor, Morton and Hunnicutt are bound, we think the latter may rely upon him.

We have heard of all the Circuit Judges in the State condemning the Governor's profligate use of the pardoning power, except Tourgee, Watts, Jones, Cloud, Buxton and Cannon.

Judge Thomas sentenced several negroes to the Penitentiary for going to the house of a Conservative negro and giving him three hundred lashes for voting that ticket. The Governor, being President of the Leagues, pardoned them forthwith. Judge Thomas did not hesitate to condemn the act.

Judge Henry expressed himself in terms of great indignation at the Governor's pardoning John Ledbetter, whom he had sentenced to the Penitentiary for twenty-five years.

The Governor gave, as a reason for pardoning Ledbetter, that he was idiotic and only fourteen years of age, when convicted. These statements are positively false, and if true, would only prove the incapacity of Judge Henry, in sentencing an idiotic boy to the Penitentiary for twenty five years.

We have seen Ledbetter; he is a large, loud talking, bold, impudent fellow of twenty five years of age. He is now in Hillsboro' jail with pardon in pocket, with the great seal of the State attached thereto.

Ledbetter was rearrested and committed to jail for stealing, six days after the Governor pardoned him out of the Penitentiary. The Governor reported to the Legislature that he had pardoned one hundred and twenty-five convicts, Ledbetter, among them. Ledbetter like Hunnicutt, seems to have had a forerunner. The Sheriff of Henderson county reached this city on the 18th of December, with two negroes (Ledbetter and another) and one white man, destined for the Penitentiary. The two negroes were released the day they arrived, the white man was not. We suppose he did not belong to the league.

We tell the Governor, this prostitution and abuse of the pardoning power, like his visits to the grog shops, must cease.

AHEAD OF SQUIRE ADAMS.—We published, last week, a bill of cost in a suit before Justice Adams; the cost being $6.10 on the collection of a debt of $6.50. Mr Adams justified the charges by showing they were made according to law, and that there was no overcharge, and that no blame attached to him for the heavy cost.

Every intelligent man who voted for Tourgee, Greasy Sam and the Radical ticket, must take his share of the odium which attaches to such oppressive charges—six dollars cost for collecting a six dollar debt.

An Orange Magistrate informs us of a still more outrageous case, being a bill of $18.45½ to the Magistrate and Constable alone, on the collection of a small debt.—The cost under the old system would have been only $1.20.

The question is, can, or will, or ought, any people to stand it? Such costs upon the people are heavier than the direct taxes levied by the Radicals upon them.

GONE SOUTH.—One of Chicken Stevens' constituents, wishing to know what he would do, now that he had lost four hundred of his brethren and supporters who had gone to the Southern cotton fields, was answered that he (Chicken,) would go South with them.

If many more of the negroes of the State go South, we believe carpet baggers and such natives as Stephens, Watts and Henderson will follow them. If the negroes *will* go, we hope they will take all such with them.

GLORIOUS UNCERTAINTY OF THE LAW.

Since the passage of the law to get the editor of the SENTINEL in jail, we have been careful in reporting the proceedings of Courts; for the law provides, that if any person shall grossly misrepresent the proceedings of any Court, it may be regarded as a contempt, and the party imprisoned not more than thirty days, and fined not exceeding $250. Under the Act, the Judge presiding has it all his own way, being witness, Judge and Jury.

We have, consequently, been very careful in gathering the following facts from a member of the Bar, and if he has misled us, we shall insist on his being put in jail instead of ourself.

Joe Hardee was indicted at the last Fall term of the Superior Court for stealing flour from Mr. Simpson's Bakery. He was caught coming out of the Bakery with fifty pounds of flour in a bag on his back.

The indictment was on an old printed form with the blank date "186-" to be filled up by the Solicitor. This was inadvertantly omitted, and when the case was put to the Jury it was charged as having occurred in the year 186.

The Solicitor seeing the omission, asked the Court to allow him to withdraw a Juror or submit to a non-suit.

Mr. Charles Busbee, defendant's counsel, objected, and said he was entitled to a verdict in the case; the jury having been impannelled, must say, "guilty" or "not guilty." Judge Watts, instead of ordering a juror to be withdrawn, thereby making a mistrial, ordered them to find a verdict of "not guilty," which they did. In twenty minutes a new bill was sent against Joe for stealing flour in 1869. When he was again put upon his trial, on the new bill, Mr. Busbee pleaded former acquittal. The Judge had the case put to the jury, and, strange to say, the jury convicted. An appeal was taken to the Supreme Court, where the last verdict and finding will be set aside, of course, and Joe will go "scot free," and the county of Wake pay a handsome bill of cost, all because of judicial ignorance.

This incapacity of the Judge is shown all through. He should have ordered a juror to be withdrawn and not a verdict for the defendant entered. In the second indictment, a Judge who was in the slightest degree fit to preside, would have instructed the jury that they could not find the defendant guilty, when he had been once tried and acquitted for the same offence.

By and by the people will find out that to support such Judges on the Bench, will cost as much as to support the Governor's son-in-law as Attorney General.

DREADFUL NEWS.—The following is from Forney's *Chronicle*:

"In Alabama, as in North Carolina, the massacre of Unionists still continues."

If Forney were half as attentive and earnest in saying his prayers as he is in inventing and publishing lies concerning the South, he would stand a much better chance of finally escaping the clutches of the devil.

NOURISHING STUNTY TREES IN PARIS.—All the boulevards of Paris are planted with trees, many of which were, however, destroyed during the revolution of 1848. New trees were, therefore, planted and their growth fostered with an amount of skillful attention that has produced astonishing results, when the natural disadvantages are taken into consideration. The trees are planted in loam that has been previously mixed with sand, and transported to the city. This is contained in large receptacles, lined with brick sunk below the surface of the footway and coated with cement so as to render them impervious. They form in fact, gigantic flower-pots; and into them are conducted the root-drains of each house-block, from which the earth receives its water supply. These basins or flower pots are built of capacity sufficient to admit a considerable expansion on the part of the roots of the trees. An ornamental circular iron grating, set flush with the footway, is placed over these basins and around the trunks of the trees. This admits of air for the proper support of the roots. The roots of the trees are thus removed from the deleterious influences of escaping street gas, and the poisonous emanations from sewers, causes which are well known to have destroyed the vegetation in the streets of many cities.

THE TOMB OF PRESIDENT POLK.—To day I visited the tomb of President Polk. He is buried in the door-yard about midway between his late residence and the street.—Everything around the residence and tomb is very plain and unpretending. I met Mrs. Polk in her yard, and was cordially invited to view her late husband's premises. She is a very sociable lady, and she made numerous inquiries about Ohio men who were in Congress during Mr. Polk's administration, and among the number was our old friend, Hon. Henry St. John. She had not heard of his death, and grieved to hear that he was no more. She picked me a boquet of flowers, which I hope I may save until I get home. As President Polk had no children, he willed his residence to the State of Tennessee, as a Governor's residence, at the death of his wife. It is close to the capitol building, and is already looked upon and visited by strangers as public property.—*Nashville Letter to Tiffin (O) Advertiser.*

STATE OF TRADE.—In its regular weekly review the New York *Journal of Commerce*, of the 8th inst. says:

The business of the week has been more intolerable than Alexandrine which, in the school-books, "like a wounded snake drags its slow length along." Holders have been weary and impatient; buyers have been listless and indifferent, and the trade has been dull, stale, flat and unprofitable. An offer for any heavy lots of goods excepting always a few leading styles always staple and kept on assortment, would have been met at a considerable reduction from old figures; but in the absence of such offers the nominal quotations remain about the same. It is said that large jobbers in the interior cities who bought their supplies at an early date in the season have been crowding them off at the best rates they could obtain, and this has added to the general depression here. We look for more activity before the final close of the season, but the business has been far from satisfactory.

DEMOCRATIC SENATORS WANTED.—If a dozen Democrats, all as able as Mr. Thurman, were to replace a dozen Republicans in that body during the next thirty days it would be a great gain to the Senate, to the Republican party and to the country. It would produce better legislation.—*N. Y. Times, (Republican.)*

THE following, which we clip from the Brooklyn *Eagle*, will be read with interest by the people of the South, as coming from a gentleman well acquainted with the facts upon which he writes, having informed himself in regard to them by actual observation and extensive travel over the whole South:

THE ACTUAL CONDITION OF THE SOUTH, AS SEEN BY A BROOKLYNITE.

To the Editor of the Brooklyn Eag'e:

Having spent the past winter in a somewhat extended tour through the Southern Atlantic States to the Gulf, visiting almost every section from the seaboard to the mountains; and having enjoyed facilities for learning the views and sentiments of all classes and parties in regard to their present and prospective condition, and seen a vast amount of undeveloped wealth, I submit the following statement as the result of some of my observations, for the information of those who feel any interest in that section.

And first, in regard to the people. The blacks, who are the most valuable laborers in the world, when treated right, and especially for field service, at some crops in that climate—after having been cruelly tempted, imposed upon, and used by loyal demagogues—are fast learning who are their true friends, and finding their true position. The intelligent and influential classes, who pay the taxes for the support of government, although excluded from participating in its management, approve and cordially support every honest scheme for educating and improving the moral and physical condition of their colored fellow-citizens. They also cordially welcome every new comer, from whatever land or section, or calling of industry—except the "political carpet-bag speculators," whom they as heartily despise. As in every other section, there are outlaws and outrages, but with all the whisky and fire arms—which many of the younger and more ignorant citizens of both colors avail themselves of "since freedom came"—there are fewer brawls and less danger to life or property in all the Southern States than there is in any of our larger Northern cities. True, there has been a good deal of petty thieving of pigs, chickens, &c., but the stories of Ku Klux outrages are all manufactured or colored up for political and speculative purposes, and they have had their effect.—Thousands of Northern and Western men, who have had the courage to trust their lives in that section, have made investments and are engaging in enterprises that will demonstrate the fact that the South offers greater inducements for the farmer, the manufacturer and the mechanic than any other portion of the world.

The invalid and those predisposed to certain hereditary diseases can find in the humid and temperate air of the seaboard, or in the bracing atmosphere of the hilly and mountain region, the climate best adapted to his case. The agriculturalist can find every variety of soil, and can grow everything that can be produced in any other part of our country, besides several valuable staples that will grow no where else. And for the manufacturing of many stapple products there is no section of this country, if in the world, that possesses such immense natural advantages of unfailing and easily controlled water power, in a genial, healthy climate, surrounded with the raw material of cotton, timber, iron ore, and valuable minerals of all kinds—good and cheap farming, where every luscious fruit can be cultivated, and now grows almost spontaneously—where the tea-plant, madder, indigo and rich products of other countries will flourish.

While there are unoccupied lands, unproductive mill sites, mines, &c., to be had at the South, (all cheap now,) sufficient to support a thriving multitude many times greater than the population of our whole country, it would seem that these facts only require to be known to encourage thousands of our enterprising citizens to avail themselves of the opportunity to better their own condition, and at the same time contribute towards rendering that portion of our country what nature has designed it for—an earthly paradise.

H. W. B.

This surely is not right. So careless have we been of the Confederate dead buried at Gettysburg that there is a widespread feeling in the South, which has found expression in a mournful cry, that her dead ought to be brought back to less inhospitable soil. Now, that the South should wish to have within her bosom the ashes of those who died for her is perfectly just. This even they who will not give those dead the credit of patriotic motives can hardly deny. But it is discreditable to the North that we should wreak our vengeance on those who have expiated their "fault" or "mistake" or "crime" by their deaths. And what is it but wreaking vengeance on corses, when those in charge of the Gettysburg Cemetery say that "their charter only provides for the interment of the remains of those who died in the defence of the Union." But no civilized nation would hesitate to do honor to its gallant enemies—no, not even the Cossack. The ladies of the South, the soldiers of the South—among them their chief—are gathering their mites to bring these ashes of their dead home. It will be a lasting disgrace if we do not render it unnecessary. *N. Y. World*

ACCIDENT ON THE W. N. C. R. R.—Sam Johnson, a well-known and very respectable colored man of this place, was we regret to learn, seriously and it is feared fatally injured on yesterday. The train upon which Sam was brakeman—was backing from Morganton to Bridgewater.—Sam leaned out from the platform to look at something which attracted his attention, when his head struck the water-tank on the side of the road, knocking him insensible, when he fell from the train. He was brought back to Morganton, where he had proper medical attention. This is another sad warning to all, of the danger of putting their heads out of cars, while they are in motion.

Judge Bond, of Baltimore, who has been nominated to the Senate to be United States District Judge for the Fourth District, is a fifth-rate lawyer, of little or no reputation as a jurist, and who derived his title as Judge from having presided over a petty court in Baltimore. He is a Radical of the most rabid stamp, who owes his notoriety wholly to the negro element of the party. His nomination is eminently one not fit to be made. The President knows him too well to have nominated him upon his own motion, or without a pressure of party to which he must have yielded very reluctantly.—*Boston Post.*

It has come out that the President has discovered a forging of his name by a person who was appointed to a Federal office in the revenue service. The papers are now in the hands of the President for critical examination, and your correspondent is not at liberty to give particulars until the preliminary investigation of the facts is concluded.—*Richmond Dispatch Special Washington.*

It seems Texas has been hoarding gold for years. Fifty millions, probably, are now in the State. The fall in gold has cost Texas on account of this hoarding, at least five millions. This capital will now be employed.

For the Sentinel.

GRANVILLE Co. April 14th 1870.

MR EDITOR:—At a republican celebration in Oxford, on the 9th of April, the Rev. Lewis Ragland, son of "honest John," undertook in his speech at night to give Col. T. L. Hargrove some pastoral advice and admonition, supposing he had given in his adhesion to the political equality ides, as the Colonel in his speech told the blacks to elect "true republicans" to office. The Reverend son of John must have drawn pretty heavily on his imagination to suppose that Col. T. L. Hargrove, after glorying in secession, breaking his sword in the deadly fight, and was so eager to march to Washington on coals of fire to keep negroes from enjoying freedom and political rights, could embrace the cohesive idea, after making such wry faces at "the goat." Like a good pastor tutoring his new converts after a great revival, the Reverend son of John gave in, for the benefit and encouragement of the hitherto wayward, but now congenial soul of the new convert, a sketch of his own personal experience in radicalism. He said he had been cut off from the society of his former white friends, and been persecuted and abused on account of his principles, but said he, stand firm, "you will catch it before Saturday night."—Well really, I am inclined to think the Reverend divine was right, for if he gave a truthful account of his sufferings for the cause. The "new convert" will need much more fortitude than I think he possesses to enable him to undergo such ostracism and privation in the sinking cause.

The Rev. son of John, seemed to swell unutterably full with the grandeur and sublimity of the soul stirring and inspiring theme. He became truly eloquent. Throwing all the gigantic powers of his colossal intellect in the scale, he mounted the "Apocalyptic vision" of the exile of Patmos, and indulged in an outburst of eloquence that *almost* dimmed the lustre of the elevated and illuminating "stars" of conservatism, and rendered memorable the "red dragon with his brushing fiery "tail." He hoped, that as "satan drew the third part of the stars of heaven to the earth," that the *new convert* might draw the third part of his party after him. What a glorious and transcendant vision; looking to the future his prophetic eye caught a glimpse of the mighty uprising of the Republican party on the confusion and extinguishment of the illuminating "stars" of conservatism, hurled to earth from their high positions by the fiery and resistless "tail" of the *newly initiated*. But why did the Rev. minister of peace invoke the example and influence of such a prototype? Why did the Rev. son of John ignore the "seven heads and ten horns" of the red dragon, and impute the terrifying and smashing influence of his fiery "tail" to "satan," when the vision only cast him out? Was he afraid some suspecting one might misapply the horns and heads as emblematical of the many changes which characterize some office seeking, *new converts?* Or did he think as the dragon fought with "Michael and his angels" with his "seven heads and ten horns" and "prevailed not," that dexterous and flourishing "tails" were much safer in the mighty conflict?

In conclusion, permit me to say for the comfort of the Rev. Lewis, that if, in his absence, I should see any of his "new converts," the host inclined to elevate and illumine, instead of using the terrifying and smashing power of their "tails" in the downfall and total extinction of the bright luminaries of our political sky, I will give him timely notice, so he may further instruct them in the mystic duties of the "truly loil."

CLEMENT.

[From the Weldon News.]

A FATAL ACCIDENT.

A correspondent, writing to us from Nash county, under recent date, says:

MR. EDITOR:—If it will be no offence I will pen you a line or two from this dark corner of the universe. I live in a section of creation where rascality and radicalism reign rantankerously. Debts, duns and darkness predominate. But these things are so universal in this land of the "*Lost Cause*," that I can nothing new indite in relation to them, so I will relate the following circumstances and "then dry up:"

"Mr. Willis Bowden, who lived in Franklin county, some six or eight miles east of Louisburg, went out with his wife one morning some eight or ten days ago. Not returning as soon as expected, search was made for him and he was found with a bullet hole in his forehead and his brains running out. He lived four or five days but never spoke or swallowed anything.—It is supposed he killed himself accidentally. He left a young wife, father, brothers and sisters to grieve over his loss. He was a son of Dempsy Bowden, and was the third son of his who was accidentally killed by a gun. Is it not strange? Mr Bowden was a good man.

QUIS."

If Mr. Bowden "went out with his wife," what became of her?

While in the United States taxes and imposts are on the increase, in England a reduction is taking place in both. In submitting his annual estimates to the House of Commons, recently, the Chancellor of the Exchequer proposed the abolition of not a few taxes, and the reduction of others, amounting in the aggregate to some eighteen or nineteen millions of dollars.—The Income tax is also to be reduced to four pence on the pound. These are indications that the sentiment of the House of Commons on that tax, is such that it will have to be cut down to even a lower figure, as a preliminary to sweeping it away altogether. Behold the contrast between England and the United States under Radical rule. In England taxes are reduced, and a movement made to render their collection as unobjectionable as possible. In the United States the cry of the party in power is for more revenue, while they uphold a system of collecting taxes which is particularly obnoxious to the people of all parties.—*Phila. Age.*

A TERRIBLE FISH STORY.—A strange monster was captured recently in the river, opposite Canton, by some fishermen, in their seine, while dragging for fish. We know not what to call it, or what it looks like, or how to describe it, for it is unlike any creature of earth, air or water, that we have ever seen. It is not a fish, nor is it an alligator, or crocodile, or a turtle, but resembles the pictures we have often seen in books of the mythical dragon. It is a hideous-looking and apparently savage monster—the last remnant of a past age. It has a huge, slimy, scaly body, short, strong legs, immense claws, long, serpent like tail and sharp teeth, set in, like those of a saw. It chawe up ravenously everything with which it comes in contact, but seems loth to leave the water even in quest of food, and can only be seen when drawn out by the chain with which it is made fast. We should judge it to be ten feet in length, and it weighs probably 500 pounds.—When provoked, it makes a roaring noise similar to a sea lion. The parties having it in charge are having a large tub or tank made for it, and they intend to take it to Quincy and St. Louis for exhibition. They have refused a thousand dollars for it.—*La range, Mo., American.*

Medal Awarded by the Paris Exposition, 1867.

THE AMERICAN COMBINATION Button Hole & Sewing Machine

Has been honored with the *highest* award in premiums and diplomas wherever entered for competition at *fairs* and *exhibitions* held during the past season.

THE SIMPLICITY, EASE AND CERTAINTY with which this machine operates as well as the uniform excellence of its work, throughout the entire range of Sewing, in

Stitching, Hemming, Felling, Tucking, Cording, Braiding Quilting, Gathering & Sewing on, Overseaming, Embroidering on the Edge, and its Beautiful Button-Hole and Eyelet Hole Work.

Place it unquestionably far in advance of any other similar invention.

It is also the CHEAPEST intrinsically, as well as the BEST, since it is really TWO MACHINES combined in one, (by a simple and beautiful mechanical arrangement never before accomplished by human ingenuity,) making either the Lock Stitch or Button-Hole Stitch, as occasion may require. It is, at the same time, simple in construction, comparitively noiseless, easily understood, and in a word, it combines with these ADVANTAGES, EXCLUSIVELY ITS OWN, THE MOST DESIRABLE QUALITIES OF ALL OTHERS.

The public are invited to examine this remarkable machine at Miss TOURNEY'S Boarding House, (Mrs. Thompson's old stand,) Fayetteville Street, and at Watson's Photographic Gallery.

CARD.

SOUTHERN LIFE INSURANCE CO.

TO THE PEOPLE OF NORTH CAROLINA.

AT the request of General Jno: B. Gordon, President Atlanta Department, I have come to your State to bring prominently before you the claims and merits of the Southern Life Insurance Company. It is under the control of as honorable and as responsible men as there are in the land. It is managed in the most prudent and economical manner and will deal justly and fairly with all.

We have no war to make upon other Insurance Companies, but *we do wish* to impress upon the people the importance of *keeping their money at home*. By careful calculation it is estimated that a sum of not less than *twelve millions* (annually) is sent from the South, to the North for Life Insurance and unless checked will surely prove suicidal to our interests. We ask you to consider how greatly the material interest of this section would be benefitted by the retention of these enormous sums in our midst.

We send no money away to enrich foreign capitalists but every dollar of premium (less expenses) is INVESTED IN THE STATE FROM WHICH IT IS DERIVED.

This department of the Company has operated both in Georgia and South Carolina, and has done an unprecedentedly large business. Some of the most prominent gentlemen in these States are identified with its interest. Its Board of Directors embrace the names of the ablest financiers, and most successful business men in the South. They are the Trustees of the sacred fund of the widow and orphan. Will you not trust your friends and neighbors; or is it more secure in the hands of strangers? We appeal to you to assist us in pushing forward this deservedly popular and reliable Southern corporation. Its solvency is unsurpassed by any Company doing business in the United States, its ratio of assets to liabilities *the only true test of a Company's strength*, fully sustaining this statement.—We would respectfully call attention to the Board of Directors and Stockholders, published in another column, and to our Board of Reference in this State and others.

THE SENTINEL.

CITY AND STATE ITEMS.

MONDAY, APRIL 18, 1870.

Mr. THEO. S. HARNEY, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

ANNOUNCEMENT OF CANDIDATES, not exceeding five lines, until the day of election, will be inserted in the SENTINEL for $5, payable in advance.

GOOD GOODS.—We call attention to the advertisement of Mr. L. E. Heartt, which appeared in the SENTINEL on Saturday morning; especially the attention of the ladies to a new pattern of Corsets, a specialty with Heart, with which the ladies must be pleased, because it combines health, grace and comfort. His general stock is an attractive one.

Other new advertisements of Saturday and to-day, will be specially noticed to-morrow.

A few numbers of the present issue have the Saturday's date on the outside, but the inside is dated correctly.

BROOM.—We are indebted to W. J. Palmer, Esq., for one of the nice, well made brooms manufactured by the Blind in the Institution over which he presides, for which he will please accept our thanks.

ACCIDENT.—Mr. J. H. Bryan, of this city, we learn, accidently fell from his chair, on Friday night and broke his thigh bone.—We are glad to be able to state that the limb was set and he is doing well.

PEOPLE'S BUILDING AND LOAN ASSOCIATION.—At a meeting of the People's Building and Loan Association, held on Friday night last, the business was represented as prospering. Two shares of the stock were redeemed at $127.50, and 4 shares at $129.00.

Corns, bunions or bad nails cured without pain or drawing blood, by Dr. Lindoman, Chiropodist. Dr. L. will positively only remain until Wednesday, April 20th. If you have corns don't fail to give him an early call at the Yarborough House. Ladies attended at their residences without extra charge. Remember, until Wednesday, April 20th.

21*

MEDICAL SOCIETY OF N. C.—We learn incidentally, that the Medical Society of North Carolina, will hold their next annual meeting in Wilmington, on the 25th May, *prox.*

This reminds us that we received a copy of the proceedings of the last meeting, some months ago, which was laid aside for reference, and from one cause and another,—Legislative proceedings, large accumulation of communications, heavy influx of advertisements which cramped us in space—has been omitted to the present time.—We ask pardon of the profession and of our readers for the neglect, and will shortly, even at this late day, endeavor, to some extent, to remedy the neglect.

MASONIC.—The regular Communication of Hiram Lodge No. 40, will be held at the Masonic Hall, this evening at 8 o'clock. A full attendance of the members is earnestly solicited.

JAS. C. MARCOM,
Secretary.

The Rads had a pow-wow at the Court House here on Saturday, at which a list of delegates as long as the first three chapters of Chronicles, were appointed to the May Convention. No one knows yet whether it was a Township or a county meeting. The only remarkable events that we shall notice now, was, one colored orator intimating that Timothy wouldn't be Sheriff any more, and another colored orator giving a white "man and brother" the lie, thrice in quick succession.

"PERSONAL."—Under this head, the *Standard* of Saturday modestly announces the arrival in the city, of Blow-your-Horn Billy, one of the proprietors of that paper, on his way to Johnston county.

His object in going there was to participate in a county Radical convention. A gentleman who left Smithfield at 3 o'clock, Saturday, says that up to that time, after frequent proclamations, they had failed to rake together enough of the fragments of the party to hold a meeting. Even the blowing of Billy's horn was a failure on this occasion.

WORTHY OF IMITATION.—The committee of the Rescue Fire Company called on a couple of ladies, while out raising funds to pay for their engine, and received from them $5. The ladies having informed themselves more thoroughly in regard to the merit of the claims of the company on the property holders of the city, sent the committee, next day, a note increasing $15 more. We will not publish the ladies' names, but suggest to all their example as one worthy of imitation.

PREPOSTEROUS.—"To add perfume to the violet, to gild refined gold," or to put any more red dirt on Fayetteville street.

Beyond a Doubt.

More diseases are the result of a derangement of the Liver than from any other cause.—When that organ is diseased, every part of the system sympathises with it, and general prostration and decline is the result. The best, safest and speediest remedy for Liver Complaint, and all the diseases that follow, is TUTT'S VEGETABLE LIVER PILLS, they are peculiarly adapted to the climate of the South. They are sold by Druggists everywhere.

Asthma.—A spasmodic affection of the Bronchial Tubes, which are covered with a dry tenacious phlegm. *"Brown's Bronchial Troches,"* will in some cases give immediate relief. For Coughs, Colds, and Throat Diseases, the Troches have proved their efficacy.

"An Old Lady Friend having tried many remedies for Asthma with no benefit, found great relief from the Troches."—REV. D. LEVIS, Frankfort, Ill.

ap 18-eod1w

HIBERNICON.—We hastily noticed this exhibition in Saturday's issue, but even's much more lengthy one might have failed to do it full justice. To any one at all acquainted with Irish history, tales and legends, or read in Irish biography, it cannot fail of being highly interesting, while to the admirers of Irish wit, the representative characters of Barney the guide, by Mr. Jerry Cohan, Norah, by Miss Mary D. MacEvoy, and of the widow O'Callagan, by Miss Kate Halpine, will prove ample food for good, hearty laughter throughout. The lectures or explanations of the paintings, concise and clear, by Mr. Charles Mac Evoy, adds great interest to the scenes presented on the canvas.

HANDSOME PRESENT.—We saw at Messrs. Brown & Anderson's yesterday a handsome gold headed cane, elaborately carved, presented to Gen. WM. MCRAE by the employees of the Roadway Department of the Wilmington and Manchester Railroad. It bears the following inscription: "Presented to Gen. WM. MCRAE, late Superintendent W. & M. R. R, by many employees of the Roadway Department, April 1870."—*Wilmington Journal.*

COULDN'T BE BOUGHT.—A prominent Radical Senator who usually votes with the ultra wing declared the other day that he would like very much to see the old Southern Senators back again; first, because he did not like the carpet-baggers; and secondly, because the Southern Senators, whatever their errors or shortcoming could never be bought, and their moral influence was always a steady bulwark against the designs of the corruptionists.—*Wash. Cor. N. Y. World.*

We are glad to know there is one wealthy local in the world. According to his own figures, the local editor of a Mississippi paper is the wealthiest man in the West. He sums up his worldly possessions in this wise:—Mrs. Local (par value) $1,000,000; one seven week old local, $250,000; cash on hand, 45 cents; due on account, $1; sundries, 12 cents. Total $1,350,001,55; yearly income one local.

Help for the Miserable.

No wonder that the face of the dyspeptic has a dragged, worn, hopeless expression that is pitiful to see. No wonder that the miserable martyr to indigestion is fretful, irritable, and unsocial. Whoever can bear the pangs of this tormenting complaint cheerfully, and with an unruffled temper, is little short of a saint. But why should human fortitude continue to be thus severely tried, when an absolute specific for the disease is always at hand. Everywhere within the limits of civilization in this hemisphere Hostetter's Stomach Bitters is obtainable, and the history of the first case of dyspepsia in which it has been administered in vain, has yet to be written. The sickness at the stomach, the sense of weakness and stupor, the feeling of emptiness and hollown ss before eating, and of oppression afterwards, the fluttering of the pulse, the intense nervous irritation, to morbid indisposition to exertion, the weariness of life, and indifference to all it pleasures, which are among the symptoms of the disease in its chronic form are rapidly ameliorated by the tonic operation of this palatable vegetable restorative, which seems to renovate and quicken all the dormant forces of the system, and rouse the mind from the apathy and gloom inseparable from a derangement of the digestive and secretive functions. In ordinary cases a few weeks suffices to complete the cure, but when the disease is complicated, as it often is, with torpidity of the liver, severe constipation, impurity of the blood, and a sluggish circulation, a longer time may be required. Persevere, however, and the result is certain. An encouraging improvement will be perceptible from day to day, and the convalescent, knowing and feeling that he or she is on the high road to health, will await the happy issue with comparative patience.

The Eighth Wonder.—To the seven wonders of the world an eighth has been added. It is a fluid without bad smell, sediment, or color, that changes the grayest hair to its youthful shade in from five to ten applications. TO CONTRACTORS.

OFFICE PEN. COMMISSION,
RALEIGH, N. C., Feb. 21, 1870.

SEALED Proposals will be received by the Commissioners of the North Carolina Penitentiary at their office, Raleigh, N. C., until noon of Wednesday the 20th of April, 1870, for the erection of the Penitentiary on the site chosen for that purpose near the city of Raleigh. Bids to be endorsed "Proposals for Building the Penitentiary," and addressed to the care of G. Wm. Welker, Sec. to the Commission. The plan, drawings and specifications may be seen and inspected, and additional information if desired obtained at the office of the Assistant Architect at Raleigh, N. C., or of L. T. Seofield, Esq., Architect, Cleveland, Ohio. Bids to be made in the forms prescribed by the Architect, printed copies of which and of specifications may be procured on application to the Architect or Assistant Architect. Bids are invited for the following separate divisions of the work, viz:

1. Stone Masonry and Cut Stone.
2. Brick Work.
3. Plastering.
4 Wrought and Cast Iron Work,
5. Carpenter and Joiner's Work.
6. Painting and Glazing.
7 Galvanized Iron Work and Slating.
8. Plumbing and Gas Fitting.

The Quarry is quite near the site of the building. The stone are good and the Commissioners have the use of the entire quarry for all purposes of the Penitentiary. The Commissioners will receive bids for the Brick work both to lay the brick, they furnishing the brick, or for the entire job of brick work, the contractor taking four millions of brick already provided by the Commission, at the price paid for them.

Each bidder shall specify what number of convicts he will engage to employ on his contract and what wages he will pay for them provided the Commissioners furnish guard and Overseer, and board and clothe the convicts.

Each bid to be accompanied with a written guarantee signed by two responsible sureties, and duly stamped. The Commissioners reserve the right to reject any or all bids, to accept or decline to close a contract, as in their discretion they may deem it their duty to do.

All bids week to be forwarded as rapidly as practicable, and completed at the earliest possible period. The Commissioners reserve the privilege of taking possession of the several parts of the building, from time to time, as soon as in their judgment it can be occupied.

Each bidder will furnish his post office address and hold himself in readiness, with his sureties, to enter promptly into contract on the acceptance of his bid. Copies of the specifications can be had of the Assistant Architect by mailing $5, which sum will be returned when the specifications are returned. Proportional payments on monthly estimates will be made as the work progresses, retaining ten per cent. until the contract is completed

MEDICAL

A

HEROIC REMEDY!

HENRY'S

CARBOLIC

CONSTITUTION

RENOVATOR!

Based on Science, Prepared with Skill,

and all the available ingenuity and experience, that the art of pharmacy of the present day can contribute. And

COMBINING IN CONCENTRATED FORM THE MOST

VALUABLE VEGETABLE JUICES

Known in the history of Medicines for

PURIFYING THE BLOOD,

Imparting

NUTRITION TO THE SYSTEM,

Tone to the Stomach,

And a Healthy action to the Liver, Kidneys, Secretive and Excretive Organs.

A DYING ZOUAVE

lay breathing in last on the battle field, his companions surged on and left him alone. They knew the cause of his approaching end it was the deadly bullet. No friendly voice could cheer him to die—no human skill could save him.

Thousands of Precious Lives

are to-day as rapidly sinking, and as surely tottering on to an untimely end, in suffering, Agony, Wretchedness, and Ignor nce of the causes which

Science can arrest and assuage,
Nourish into new Life and Vigor,
And cause the Bloom of Health
To dance once more upon their withered Cheeks.

DISEASE, LIKE A THIEF,

Steals upon its victims unawares and before they are aware of its attack, plants itself firmly in the system, and through neglect or contention becomes established, and defies all ordinary or temporary treatment to relinquish its merciless grasp.

DO YOU KNOW THE CAUSE OF

The wasted form—the hollow cheek?
The wit'ered face—the shallow complexion
The feeble voice—the sunken, glassy eye?
The emaciated form—the trembling frame?
The treacherous pimple—the torturing sore?
The repulsive eruption—the inflamed eye?
The pimpled face—the rough colorless skin?
and debilitating ailments of the present age?

The answer is simple, and covers the whole ground in all its phases, viz: the

FANGS OF DISEASE

AND

HEREDITARY TAINT

ARE FIRMLY FIXED IN THE

FOUNTAIN OF LIFE—THE BLOOD.

The

INDISCRIMINATE VACCINATION

during the late war, with diseased Lymph has

TAINTED THE BEST BLOOD

in the entire land. It has planted the germ of the most melancholy disease in the veins of men, women and children on all sides, and nothing short of

A HEROIC REMEDY

will Eradicate it root and branch, forever. Such a Remedy is

HENRY'S

CARBOLIC

CONSTITUTION

RENOVATOR.

ON REACHING THE STOMACH, it assimilates at once with the food and liquids therein, and from the moment it passes into the Blood, it attacks disease at its fountain head, in its germ and maternity, and disintegrates it through the evening of the organs with unerring certainty, and sends NEW AND PURE BLOOD BUBBLING THROUGH EVERY ARTERY AND VEIN.

The tubercules of Scrofula that sometimes flourish and stud the inner coating of the abdomen, like kernels of corn, are watered, dissolved and eradicated, and the diseased parts nourished into life. The Torpid Liver and Inactive Kidneys are stimulated to a healthy secretion, and their natural functions restored to renewed health and activity.

Its action upon the blood, fluids of the body, and Glandular System, are

TONIC, PURIFYING AND DISINFECTANT,

Its touch disease droops, dies, and the victim of its violence, as it were

LEAPS TO NEW LIFE.

It relieves the entire system of Pains and Aches, enlivens the spirits, and imparts a

Sparkling brightness to the eye,
A rosy glow to the Cheek,
A ruby tinge to the Lip,
A clearness to the Head,
A brightness to the Complexion,
A buoyancy to the Spirits,
And Happiness on all sides.

Thousands have been rescued from the the verge of the grave by its timely use.

This remedy is now offered to the public with the most solemn assurance of its intrinsic medicinal virtues, and powerful Healing properties.

FOR ALL AFFECTIONS OF THE

Kidneys, Retention of Urine,

And Diseases of Women and Children,

Nervous Prostration, Weakness, General Lassitude and loss of Appetite, it is unsurpassed.

IT EXTINGUISHES

Affections of the Bones, Habitual Costiveness, Debility, Diseases of the Kidneys, Dyspepsia, Erysipelas, Female Irregularities, Flatulency, all Skin Diseases, Liver Complaint, Indigestion, Piles, Pulmonary Diseases, Consumption, Scrofula or King's Evil and Syphilis.

Do not Insure Your Life

UNTIL YOU ASCERTAIN FROM

P. F. PESCUD,

General Agent for North Carolina,

WHY THE

National Life Insurance Company,

OF THE

UNITED STATES OF AMERICA

can, and does issue a larger Policy for less money than any other Company, represented in North Carolina.

The National was organized in August 1868. She has issued nearly

10,000 POLICIES,

HAS A CASH CAPITAL OF

$1,000,000,

which was all paid in before a Policy was issued and which has already increased, fifty per cent. All the losses reported to 1st Jan'y last amounted to but $40,000, and as a further evidence of the great care observed in the selection of risks, 824 applications amounting to nearly $2,000,000, were rejected last year. Therefore a solid basis and inducements that none but Stock Companies can afford, is enjoyed by all who prefer the National to Mutual or mixed Companies.

ALL LIABILITY FOR LOSSES IS AVOIDED.

Every man who has a family, should try to create an Estate for their support, which he is taken from them by death—and a very small annuity spent for a Policy secures a larger amount of Cash Assetts, and is far more certain, than the same amount will secure in any other investment, and a more tender expression of love and responsibility could not in any other way be more beautifully expressed.

Guaranteed to make a better and safer Light than Coal Oil and to be NON-EXPLOSIVE!!!

No accidents have ever happened with it.

Protected by Copy right for 28 years from May 8th 1868.

The above Fluid has been in constant use for upwards of three years, and has sustained its unrivaled reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and uninjurious to the eyes. All that is asked is, a fair and impartial trial.

Among the numerous testimonials received read the following:

PHILADELPHIA, March 15th, 1869.

The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination Burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a safe and brilliant illuminating agent. Its cheapness added to its other good qualities, should insure its introduction into every family in the country, where Kerosene Oil is used.

LORING ANDREWS,	Vice President.
J. A. HADENBURGH,	2d Vice President

DR. E. BURKE HAYWOOD,	Examining Physician.
Gen'l. S. B. BUCKNER,	Manager Southern Dep't.

The Globe has peculiar claims upon the Southern country, from having first introduced the non-forfeiting feature in all its policies. Its President, Mr. Pliny Freeman, was the inventor of the ten-year, non-forfeiture plan, and introduced it in the Company with which he was then connected.

The Globe takes no notes; but receives its premiums in cash, and pays its policies in cash, without deduction.

To those desiring it, the Company will issue policies, registered and certified by the Superintendent of the Insurance Department of New York, as "secured by pledge of public stock."

THE MOST SUCCESSFUL CASH COMPANY IN THE WEST!

The Stock of this Company is owned by the Capitalists of Louisville, Ky., and St. Louis, Mo. It is emphatically a Western and Southern Institution.

The DE SOTO has no desire to exalt its merits over those of other good Companies, nor to prosper on the decline of others, laboring in the same fields, and for the same grand object. Confident of its equal advantages with others, of whatever age or standing, it is willing to labor honorably for success, and hopes to deserve the public confidence by its energy, industry, and liberal spirit.

From the Missouri Republican.

"Few Companies have started out with such gratifying and flattering prospects of success, and under such favorable auspices. The Company has been extremely fortunate in the selection of its Directory. Its President, JAMES H. LUCAS, needs not a word of commendation from us. He enjoys a general reputation as a gentleman of wealth, unquestioned integrity, practical good sense, sound judgment and splendid business capacity.

The Directors rank among the first class of our merchants, bankers and citizens, as men of capital, financial ability and experience; men of probity and unblemished reputation. In the character of such a Directory, the community have the best guarantee that the business of the Company will be prudently and judiciously managed."
